

特點

- 採用先進LED光源，使用壽命長達30000小時
- 恆流驅動，立即點亮，無頻閃
- 無汞污染，無紫外線和紅外線輻射
- 散熱佳，長時間輸出穩定
- 降低二氧化碳排放量
- 綠色環保

適用範圍

飯店、餐廳、飯店及家庭等場所的照明
用燈、商場、櫥窗內各種商品的用燈。

Features

- Using high power LED light sources, life span is up to 30,000hours
- Good heat dissipation, stable performance, starting fast, no flickering
- Constant-current power supply, conversion efficiency is greater and energy saving
- Surface temperature under 60°C
- No mercury pollution, no UV and IR radiation
- Reduce CO2 emission
- Easy to install and replace

Applications

1. Residential lighting: indoor, decorative
2. Commercial building lighting: hotels, restaurants, factory , hospitals, museums, shops, super market...etc.
